How do I find the wireless MAC address for an Android Device?

Different Android manufacturers list the MAC address in different places, below are the most commons directions for locating the MAC address.

Under your Applications list, select Settings.

- 1. Scroll to the right to System.
- 2. Select About Device, then Status.
- 3. Scroll down to Wi-Fi MAC Address to see your MAC Address.

OR

- 1. Under your Applications list, select Settings.
- 2. At the very bottom of the list, choose **About Phone.**
- 3. Select Status.
- 4. Scroll down, your MAC address will be listed under Wi-Fi MAC Address.

1. Tap the menu icon to go to the apps menu list.

From the app's interface, tap Settings

2) Once the **Settings** window prompts, under the **SYSTEM** section, tap the **About phone** option from the bottom.

4) Once on the About phone window, you can see the Wi-Fi MAC address for your phone under the **Wi-Fi MAC address** section
